

US National Trials, October 17th 2021

In our most recent October Wheel Weekend we were back in full swing at our usual Willye White Park location in Chicago, IL. With a weekend full of workshops, classes, events, performances, and even birthday parties, competitors were anxious to compete in the second trials to qualify for TEAM USA and get the chance to go to the Wheel Gymnastics World Championship in Denmark 2022.

Our four national champions in each category were Ava Glenski - junior girls, Aidan Elliot - junior boys, Emily Temmer - senior women, and Casey Crowe - senior men. All performed exceptionally well and have secured their spot on Team USA.

The highest scores and the highest all around result for any American Wheeler was reached by Casey Crowe with a total of 29.05 points as a combination of Spiral, Vault and Straight Line.

We also saw several gymnasts moving up to different categories as well as a couple gymnast competing for the first time in our national trials. Competitors Lola Lown and Mae Strong took their shot at competing. Lola (3rd place) and Mae (5th place) proved that they are forces to be reckoned with, and look forward to competing again.

The final decision for TEAM USA is going to take place on March 20, 2022 in Chicago, IL at Willye White Park. USA Wheel Gymnastics is hopeful to travel with at least 22 athletes from Gym and Cyr wheel with athletes from around the US to the World Championship in Denmark.

Thank you athletes , judges and coaches to make this safe and secure event happen during these times.
